DESCRIPTION

Ever heard of twelve tone technique, neoclassic style, social realism, neoromanticism, total serialism, minimalism or post-modernism?

In this lecture, Dr. R. Wood Massi Director of Education at Earplay, discusses these and other contemporary classical music movements.

The Earplay Music Ensemble has been a vital participant in San Francisco's new music environment for more than thirty years.

A live performance follows the lecture and we will raffle off free tickets to Earplay's 2016 opening concert at Herbst Theater.
